This is to confirm that the person named above may act as the agent on behalf of the applicant(s).

Signed: _____ Date: _____ (applicant)

Signed: _____ Date: _____ (co-applicant)

PART 2 – PROJECT PROPOSAL & LOCATION

PROJECT SUMMARY

Describe briefly the activity or project you wish to undertake on settlement land:

The project comprises non-invasive shallow geophysical survey using ground penetrating radar (GPR) and magnetometer (MAG) to locate any archaeological or anthropogenic features not visible on the surface and provide a better context of past site use. The project is not disturbing the ground other than inserting a few stakes for markers and using spraypaints to mark survey reference points.

PARCEL SIZE, LOCATION & SITE COORDINATES

Community, Local or Geographic Area: (eg Marsh Lake Area, Whitehorse) _____

Settlement Land Parcel (R, C or S#): _____

Legal Description (Lot, Quad, CLSR, LTO): _____

What is the area (in hectares) of the extent of land being applied for?

AREA: 3.9 hectares

SITE COORDINATES

The applicant must flag the limits of the proposed project area.

The applicant must arrange an in-person on site visit with the KDFN Lands Officer and verify the GPS coordinates in writing below prior to submitting this application for review. The corners of the application area are to be flagged/marked.

Latitude/Northing			6729933 N	
Longitude/Easting			497847 E	
Latitude/Northing			6729807 N	
Longitude/Easting			498089 E	
NTS Map Sheet No.	Community or Local Area:			

APPLICATION SKETCH

A detailed, legible, and drawn-to-scale sketch must be provided outlining the applied for area and including:

- The boundary and configuration of the proposed parcel,
- The dimensions (in metres) of all proposed parcel boundaries,
- The area (in hectares) of the proposed parcel,
- Any existing, surveyed properties or Road rights-of-way that are adjacent or near the parcel,
- Any existing roads, trails or pathways within or near the proposed parcel,
- Any road, trail or driveway that is proposed to be constructed to connect the parcel to a public road, street, or highway,
- All waterbodies and drainage courses within or near the proposed property,
- Any existing or proposed buildings or other improvements on or near the proposed property,
- An arrow indicating north,
- The scale at which the sketch is drawn,

- (Any other specific information as may be required by HLRD.)

See attached page for project site details.

PART 3 – SITE CHARACTERISTICS AND INFORMATION

PLANNING and ZONING

Applicable Land Use Plans or Community Plan in effect for the proposed project area: _____

Current Planning / OCP designation of the proposed project area: _____

Current zoning bylaw or zoning regulation designation for the proposed project area: _____

SITE CHARACTERISTICS

Describe the Site Characteristics (topography, soil conditions, landscape features, vegetation coverage etc):

Describe any adjacent or nearby creeks, rivers, lakes or other bodies of water?

PART 4 – PROJECT DETAILS

A clear, concise description of proposed development activity will help determine whether the development activity will require assessment under the YESAA. If an assessment is required, the applicant will be required to complete and submit a YESAA Form 1 application to the YESAB designated office. When filling out the sections below, if the space provided is insufficient, please attach any additional pages you may need to fully explain any activity.

DETAILED PROJECT DESCRIPTION: Please describe the details, scale, scope and nature of the proposed activity or project:

Non-invasive geophysical survey of an approximately 39,000 square meter area in the land of former Yukon and Couder Hall. The survey is planned to take two weeks on site, with two survey technicians. The proposed survey methods are GPR and Magnetometer. Aerial photogrammetry (following Transport Canada regulations) will also take place using an ultra-lightweight UAV.

TIMEFRAME: Provide an estimated schedule and overall timeframe from project commencement through to completion of development and potential restoration on the site.

The project is set to start on April 22 and to finish on May 4. Stakes will be removed on the last survey date.

FUEL STORAGE AND CONTAINMENT: Please provide detailed information regarding the delivery, type, volume capacity and storage of fuel to be used on site. Also provide a fuel spill contingency plan.

N/A

EQUIPMENT: Please describe or list any equipment (heavy equipment, drills, pumps etc) intended to be used):

Multi-channel GPR (mid-frequency range) and multi-channel magnetometer (fluxgate sensors)
DJI Mini2 ultra light UAV.

SITE PREPARATION: Describe all site preparation activities that will occur. Activities such as clearing, grubbing, stripping, drilling, burning of debris, construction of buildings or structures, and any earthworks. Include the use and type of any heavy machinery planned to be used in these activities.

Clearing might be necessary where grass is too tall to walk through with a lawn mower type equipment. Exact areas will have to be determined by site-walkthrough.

ACCESS: Explain how you will access the site, and if you plan to construct a new road or upgrade an existing access. Also confirm if or how others may be affected by your access plans.

Only a truck or van will be used to access the site. No additional road or access needed.

SERVICES & DISPOSAL: Describe provisions or requirements for: N/A. All material will be taken from site (e.g., personal garbage).

Supply of Water (for drinking or other purposes):

Garbage Disposal:

Sewage (sanitary or grey water):

Overburden Disposal (organic soil and waste):

Brush and Tree Disposal:

PROPOSED RESTORATION: Please describe how the site will be restored or reclaimed upon completion or decommissioning of the activity or project:

N/A

APPLICANT CONSENT

I/we have read all of the information contained in this application or have had it explained by a third party and fully understand it.

I/we certify that all submitted information is true and correct to the best of my knowledge and belief.

I/we understand that any misrepresentation in this application may invalidate this application and may result in the revocation of any land interest resulting from this misinformation.

I/we hereby acknowledge and confirm that the submission of this application does not grant me/us any rights to occupy or use the land for which I/we applied for prior to the approval and completion of all conditions attached to this land authorization, should this application be approved.

I/we have read all of the relevant regulations and policies and believe to the best of my knowledge that my/our application is in compliance with all requirements.

The information contained in or attached to this application is being collected under the authority of the Kwanlin Dün First Nation Lands Act (2020). This information may be shared with other persons or agencies for the purpose of reviewing the request for land. Care will be taken to protect your personal information.

CHECKLIST

The checklist is to help you complete all applicable sections of this application and to ensure that all additional information is attached. Incomplete applications will not be accepted and will be returned to the applicant for completion.

All Land Use Applicants must provide:

- Fully Completed Application
- Detailed Site Sketch
- GPS coordinates verified by the KDFN Lands Officer
- Site flagged consistent with the GPS coordinates
- Other documents, permits, authorizations or approvals as may be required on a case by case or use-specific basis.

In addition, Commercial/Industrial Applications must also include:

- Business Plan or Project Plan
- Detailed Site Plan
- Copy of Business Licence
- For quarries and industrial applications, an operations plan and a decommissioning/rehabilitation plan
- Fee with the application

Yukon/Coudert Hall
