## PART 2 – PROJECT PROPOSAL & LOCATION

### PROJECT SUMMARY

Describe briefly the activity or project you wish to undertake on settlement land:

Winter trail running event in the Fish Lake area on Sunday March 9 from 8am and 4pm. The race course would start/end at Fish Lake boat launch area and make a loop using the mushing/snow machine trails along Fish Lake, Bonneville Lakes and Fish Creek. Participants are limited to 30, plus there would be volunteers supporting the event. Runners are required to be self-sufficient carrying their own water, food and gear (no aid stations along the route). Activities at the start/finish area would include food, rink with cooking fire. All wastewill be removed/carried out. We can rent an outhouse for the start/finish. Ski Patrol requested to provide support on snowmobile. Race course would be marked with stakes, flags or tape to be removed following the event.

### PARCEL SIZE, LOCATION & SITE COORDINATES

Community, Local or Geographic Area: (eg Marsh Lake Area, Whitehorse) Fish Lake area mushing/snowmachine trails

Settlement Land Parcel (R, C or S#): N/A

Legal Description (Lot, Quad, CLSR, LTO): N/A

What is the area (in hectares) of the extent of land being applied for?

AREA: N/A hectares

### SITE COORDINATES

The applicant must flag the limits of the proposed project area.

The applicant must arrange an in-person on site visit with the KDFN Lands Officer and verify the GPS coordinates in writing below prior to submitting this application for review. The corners of the application area are to be flagged/marked.

Latitude/Northing	see attached map			
Longitude/Easting				
Latitude/Northing

NTS Map Sheet No.	Community or Local Area:			

### APPLICATION SKETCH

A detailed, legible, and drawn-to-scale sketch must be provided outlining the applied for area and including:

- The boundary and configuration of the proposed parcel,
- The dimensions (in metres) of all proposed parcel boundaries,
- The area (in hectares) of the proposed parcel,
- Any existing, surveyed properties or Road rights-of-way that are adjacent or near the parcel,
- Any existing roads, trails or pathways within or near the proposed parcel,
- Any road, trail or driveway that is proposed to be constructed to connect the parcel to a public road, street, or highway,
- All waterbodies and drainage courses within or near the proposed property,
- Any existing or proposed buildings or other improvements on or near the proposed property,
- An arrow indicating north,
- The scale at which the sketch is drawn,

- (Any other specific information as may be required by HLRD.)

Map of race course attached

### PART 3 – SITE CHARACTERISTICS AND INFORMATION

#### PLANNING and ZONING

Applicable Land Use Plans or Community Plan in effect for the proposed project area: Łu Zil Män (Fish Lake) Local Area Plan

Current Planning / OCP designation of the proposed project area: N/A

Current zoning bylaw or zoning regulation designation for the proposed project area: N/A

#### SITE CHARACTERISTICS

Describe the Site Characteristics (topography, soil conditions, landscape features, vegetation coverage etc):

The running event will take place on existing trails in the Fish Lake area, crossing landscapes including frozen lakes, sub-alpine terrain and along a creek.

Describe any adjacent or nearby creeks, rivers, lakes or other bodies of water?

The running event will take place on existing winter trails on Fish Lake, Bonneville Lakes and along Fish Creek.

### PART 4 – PROJECT DETAILS

A clear, concise description of proposed development activity will help determine whether the development activity will require assessment under the YESAA. If an assessment is required, the applicant will be required to complete and submit a YESAA Form 1 application to the YESAB designated office. When filling out the sections below, if the space provided is insufficient, please attach any additional pages you may need to fully explain any activity.

**DETAILED PROJECT DESCRIPTION:** Please describe the details, scale, scope and nature of the proposed activity or project:

The event is a one-day winter trail running event. Runners will make their way from the Fish Lake boat launch along a one-way loop course that crosses Fish Lake, the Bonneville Lakes and returns to the boat launch via Fish Creek.

**TIMEFRAME:** Provide an estimated schedule and overall timeframe from project commencement through to completion of development and potential restoration on the site.

Event is planned for Sunday March 9, from 8 am to 4pm which includes setup and take down.

**FUEL STORAGE AND CONTAINMENT:** Please provide detailed information regarding the delivery, type, volume capacity and storage of fuel to be used on site. Also provide a fuel spill contingency plan.

No fuel will be stored on site for this event.

**EQUIPMENT:** Please describe or list any equipment (heavy equipment, drills, pumps etc) intended to be used):

**SITE PREPARATION:** Describe all site preparation activities that will occur. Activities such as clearing, grubbing, stripping, drilling, burning of debris, construction of buildings or structures, and any earthworks. Include the use and type of any heavy machinery planned to be used in these activities.

The only site preparation for the event will include setting up temporary amenities such as tables, a wall tent and some start/finish flags.

**ACCESS:** Explain how you will access the site, and if you plan to construct a new road or upgrade an existing access. Also confirm if or how others may be affected by your access plans.

Access will be via Fish Lake Road. No modifications required. Parking is limited at the boat launch and we are aware of tour operations occurring in that area with Sky High and Up North. We have advised the tour operators of our event and we have asked participants to carpool

**SERVICES & DISPOSAL:** Describe provisions or requirements for:

**Supply of Water (for drinking or other purposes):** Water will be carried in and out in containers

**Garbage Disposal:** Garbage will be collected in bags and carried out.  
Course markings will be removed the day of the event.

**Sewage (sanitary or grey water):** Outhouse will be rented.

**Overburden Disposal (organic soil and waste):** N/A

**Brush and Tree Disposal:** N/A

**PROPOSED RESTORATION:** Please describe how the site will be restored or reclaimed upon completion or decommissioning of the activity or project:

All materials setup for the event (e.g. tables, course markings) will be removed the day of the event.

## APPLICANT CONSENT

I/we have read all of the information contained in this application or have had it explained by a third party and fully understand it.

I/we certify that all submitted information is true and correct to the best of my knowledge and belief.

I/we understand that any misrepresentation in this application may invalidate this application and may result in the revocation of any land interest resulting from this misinformation.

I/we hereby acknowledge and confirm that the submission of this application does not grant me/us any rights to occupy or use the land for which I/we applied for prior to the approval and completion of all conditions attached to this land authorization, should this application be approved.

I/we have read all of the relevant regulations and policies and believe to the best of my knowledge that my/our application is in compliance with all requirements.

The information contained in or attached to this application is being collected under the authority of the Kwanlin Dün First Nation Lands Act (2020). This information may be shared with other persons or agencies for the purpose of reviewing the request for land. Care will be taken to protect your personal information.

## CHECKLIST

The checklist is to help you complete all applicable sections of this application and to ensure that all additional information is attached. Incomplete applications will not be accepted and will be returned to the applicant for completion.

All Land Use Applicants must provide:

- Fully Completed Application
- Detailed Site Sketch
- GPS coordinates verified by the KDFN Lands Officer
- Site flagged consistent with the GPS coordinates
- Other documents, permits, authorizations or approvals as may be required on a case by case or use-specific basis.

In addition, Commercial/Industrial Applications must also include:

- Business Plan or Project Plan
- Detailed Site Plan
- Copy of Business Licence
- For quarries and industrial applications, an operations plan and a decommissioning/rehabilitation plan
- Fee with the application
