

Elect
Troy Friday

for KDFN Councillor
March 18, 2026

I am hardworking, reliable, and genuine. I strive every day to do my best. I genuinely want to serve our community and support everyone, especially our young people, to succeed in today's world – without losing who we are.

My Priorities If Elected:

Be accessible to citizens

Be transparent and accountable in all decisions

Ensure land-based connection and learning as a priority for all departments and services

Foster a supportive, team-driven Council environment that builds toward the vision our Elders set for us

We heal, grow and thrive through our connection to land and water. This connection should guide everything we do as a Nation.

It is our turn to lead by example and teach the leaders of tomorrow.
